

Prevent & Fight Cancer with HOCATT™ Therapy

Cancer is the leading cause of death worldwide, and in the US it is second only to heart disease. The sad truth is that developing cancer in one's lifetime is a real possibility to consider – but why?

The 2008-2009 report "Reducing Environmental Cancer Risks" from the President's Cancer Panel Reports concluded that cancer is caused by pollution of the air and water, hormones and pesticides in food, and hospital X-rays[1].

Everyone is exposed to more than one of these toxins and heavy metals on a daily basis. They weaken the immune system and predispose to cancer and other diseases... But our immune system is not just there to fight disease – a strong and balanced immune system will prevent us from getting sick in the first place! With a strong immune system, everything works better! But what does this mean for you? You'll FEEL better, LOOK better, PERFORM better and have more energy, focus and drive.

ALLOPATHIC VS INTEGRATIVE THERAPIES

Traditional allopathic medicine focuses on treating symptoms rather than the cause of disease. The problem with conventional cancer treatments like chemotherapy and radiotherapy is that although it kills the cancer cells, it has devastating side effects: it also kills healthy cells, and suppresses the immune system. People undergoing chemotherapy are prone to infections, hair loss, and may suffer from nausea, exhaustion, and more.

But there is a new generation of integrative doctors, whose main focus is to **support** the immune system – using therapies like ozone, intravenous vitamin C, proper diet, chelation, etc., which can be done in addition to conventional therapies. By combining natural and conventional therapies, patients respond better to chemo- and radiotherapy, and experience fewer side effects.

Integrative doctors often SUCCESSFULLY help people that conventional medicine alone has failed! Just look at the amazing results of Dr Vega: he took stage IV cancer non-responders, who had been told to "put their affairs in order", and started them on a protocol to detox and de-stress the mind and body – and this is the amazing part: within just three weeks of following Dr Vega's protocols, the tumours in 76% of those non-responders had more than halved in size[2]!

These integrative doctors also offer real hope to patients, and part of this hope is what the HOCATT™ can offer to you. Many integrative doctors are using HOCATT™ therapy – in fact Dr Vega himself has now replaced his previous ozone system with the HOCATT™.

WHAT IS THE HOCATT™?

THE HOCATT™ IS A SINGLE UNIT DEVELOPED FOR A SINGLE PURPOSE – STRATEGIC WELLNESS AND HEALING. How does it do this? By combining the following modalities into one relaxing session:

- **Ozone Therapy**
- **Carbonic Acid Therapy**
- **Whole Body Hyperthermia (WBH):**
  - **Far Infrared Rays (FIR)**
  - **Steam Sauna**
- **Exercise With Oxygen Therapy (EWOT)**
- **Electrotherapy**
- **Aromatherapy**
- **Photon Light & Spectrum Chromotherapy**

All of these therapies are perfectly sequenced to give a gentle, but incredibly powerful treatment that boosts energy, strengthens the immune system, and detoxifies the body down to cellular level.

LESSENING THE SIDE EFFECTS OF CONVENTIONAL TREATMENTS WITH THE HOCATT™:

Because of the way the HOCATT™ supports the immune system, patients receiving HOCATT™ therapy experience fewer side effects while undergoing chemo- and radiotherapy. These patients:

- Experience less nausea – most have excellent appetites!
- Don't lose as much (or any) hair – and grow it back!
- Have MORE ENERGY.
- FEEL better, LOOK better, and PERFORM better
- Recover faster.
- Respond better to the chemo- and radiotherapy, and
- Can tolerate MORE chemotherapy (whereas patients often cannot complete their course)

Not only does HOCATT™ therapy lessen the side effects of the conventional cancer therapies, but it also targets the cancer itself!

HOCATT™ THERAPY HELPS TO FIGHT CANCER:

Many patients use the HOCATT™ to improve their white blood cell count and become less prone to infections during chemotherapy. In instances when conventional methods are contraindicated, the HOCATT™ can also be used as a stand-alone therapy.

But how does HOCATT™ therapy work against cancer? Well, cancer cells are not like other cells: they generate energy by breaking down glucose or sugar[3]. Therefore, eliminating sugar from the diet is an integral part of cancer treatment. Also, while healthy cells use oxygen to generate energy, cancer cells don't like oxygen at all – in fact they cannot flourish in its presence[3]. This was discovered by Dr Otto Warburg, for which he won a Nobel Prize in 1931.

HOCATT™ is one of the first-line treatments for cancer – by flooding the body with Ozone and Oxygen, it not only inhibits the growth of tumours, but as seen from Dr Vega's results, the tumours actually shrink[2]!

PREVENTING CANCER WITH HOCATT™ THERAPY:

Keeping the body well oxygenated and supporting the immune system through regular detoxification is the best way to prevent any illness. HOCATTT™ therapy has tremendous VALUE: Not only do you receive so many therapies in one session, but because of the way these therapies support and potentiate one another – you get twice the results!

Each session is just 30 minutes long, which is another great thing about the HOCATT™ – it allows you to do everything you need to do to overcome a disease or challenge, or to reach a peak state of performance, and it delivers this to you ALL AT THE SAME TIME, for just 30 minutes out of your day!
